Fluid Comments/ Recommendations										
Reconditioned surface system of guar gum sweeps after staying in pits for a couple of days while waiting on 20 " csg. Buildingd additional volume of kill mud in pit 4 to optimise space & buy time when kill mud will be needed for hole displacements before and after check trip to 30" csg shoe.										
Drilling Comments										
Wait on instructions related to 20" csg. Offload csg f/boat and check same. Prepare L.S. buttress X/O. Arrange csg into running order. Welder fabricate X/O L>S to buttress thread.
