Fluid Comments/ Recommendations									
Started preparing another pit with kill mud. Could get only 110 bbls of remaining KCL brine from rig storage tank even though the control room recorded 1036 bbls. Made necessary adjustment on our inventory.									
Drilling Comments									
Continued RIH with 36" casing on drillpipe to above seabed. Waited on tide to lessen, and spudded well by jetting casing to 242m, using 50 bbl hi-vis sweeps each stand. At 242m, spotted 100 bbls of hi-vis mud in casing and allowed to soak up to report time.
